Family Options Study Public Use Files (PUF) and Restricted Access Files (RAF) User's Guide

The U.S. Department of Housing and Urban Development undertook the Family Options Study to gather evidence about which types of housing and services programs work best for homeless families. The study examines the effects of three types of programs—permanent housing subsidies, community-based rapid re-housing, and project-based transitional housing—compared with one another and with the usual care available to homeless families. The three types of programs are distinguished from one another by the duration of housing assistance and the type and intensity of social services provided to families. Usual care consists of emergency shelter and housing or services that families can access without immediate referral to a program that would provide them with a place to live.

From September 2010 through January 2012, 2,282 families enrolled in the Family Options Study across 12 communities¹ after spending at least 7 days in emergency shelter. After providing informed consent and completing a baseline survey, the families were randomly assigned to one of four groups: (1) SUB, in which families have priority access to a permanent housing subsidy; (2) CBRR, in which families have priority access to community-based rapid re-housing; (3) PBTH, in which families have priority access to project-based transitional housing; or (4) UC, in which families have access to usual care homeless and housing assistance but do not have priority access to any particular program. Random assignment yielded groups of families with no systematic differences in baseline characteristics. Families were free to take up the program to which they were offered priority access or to make other arrangements, so each group used a mix of programs. Nonetheless, patterns of program use among the groups of families contrasted substantially. The study therefore provides a strong basis for conclusions about the relative impacts of the interventions on several aspects of family well-being.

This document is the User's Guide for the Family Options Study Public Use Files (PUF) and Restricted Access Files (RAF). These files contain data collected for and analyzed in the study. These files contain survey data collected at baseline and 6, 12, 20, 27, and 37 months after random assignment and administrative data. The sources for the data contained in this version of the PUF and RAF are described in Chapter 4 and Appendix A of the study report *Family Options Study: Short-Term Impacts of Housing and Services Interventions for Homeless Families* (2015, hereafter referred to as the “*Short-Term Impacts Report*”), and in Appendix A of study report *Family Options Study: 3-Year Impacts of Housing and Services Interventions for Homeless Families* (2016, hereafter referred to as the “*3-Year Impacts Report*”).

¹ The 12 communities participating in the study are Alameda County, California; Atlanta, Georgia; Baltimore, Maryland; Boston, Massachusetts; Bridgeport and New Haven, Connecticut; Denver, Colorado; Honolulu, Hawaii; Kansas City, Missouri; Louisville, Kentucky; Minneapolis, Minnesota; Phoenix, Arizona; and Salt Lake City, Utah.

1. Introduction to the Family Options Study PUF and RAF

The Family Options Study Public Use Files (PUF) and Restricted Access Files (RAF) have been prepared from data used for analysis in the *Short-Term Impacts* report and the *3-Year Impacts* report. The PUF are available to all users for limited research and analysis. To minimize disclosure risk, the PUF have been stripped of all direct identifiers and indirect identifiers have been either removed or masked. The RAF are available upon request and approval from HUD for detailed analysis. The RAF include sufficient information to reproduce the main results in the *Short-Term Impacts Report* and the *3-Year Impacts Report* and to conduct detailed further analysis.

The PUF contain 8 files and the RAF contain 15 files.

Public Use Files

1. Public Use File: Baseline Covariates and Random Assignment Records
2. Public Use File: 20-Month Study Outcomes and 20-Month Non-response Weights
3. Public Use File: Focal Child Data—Baseline Covariates, 20-Month Follow-up Adult Survey, 20-Month Child Assessments, 20-Month Study Outcomes, and 20-Month Analytic Weights
4. Public Use File: 37-Month Study Outcomes and 37-Month Non-response Weights
5. Public Use File: Focal Child Data—Baseline Covariates, 37-Month Follow-up Adult Survey, 37-Month Child Assessments, 37-Month Study Outcomes, and 37-Month Analytic Weights
6. Public Use File: Program Use and Living Situation
7. Public Use File: Program Use (87 families only, for replication of 3-Year Results, now outdated)
8. Public Use File: Housing Status

Restricted Access Files

1. Restricted Access File: Baseline Survey, Baseline Covariates, Random Assignment Records, and Enrollment Verification
2. Restricted Access File: 20-Month Follow-up Adult Survey, 20-Month Study Outcomes, and 20-Month Non-response Weights
3. Restricted Access File: Focal Child Data—Baseline Covariates, 20-Month Follow-up Adult Survey, 20-Month Follow-up Child Survey, 20-Month Child Assessments, 20-Month Study Outcomes, and 20-Month Analytic Weights
4. Restricted Access File: 37-Month Follow-up Adult Survey, 37-Month Study Outcomes, and 37-Month Non-response Weights
5. Restricted Access File: Focal Child Data—Baseline Covariates, 37-Month Follow-up Adult Survey, 37-Month Follow-up Child Survey, 37-Month Child Assessments, 37-Month Study Outcomes, and 37-Month Analytic Weights
6. Restricted Access File: Program Use and Living Situation
7. Restricted Access File: Program Use at 20 months (for replication of *Short-Term Impacts Report* results, now outdated)

8. Restricted Access File: Program Use (87 families only, for replication of *3-Year Impacts Report* results, now outdated.)
9. Restricted Access File: Family Composition at Each Survey Wave
10. Restricted Access File: Housing Status
11. Restricted Access File: Census Tracts, Census Block Groups, and Zip codes
12. Restricted Access File: Focal Child Information
13. Restricted Access File: Program Use and Living Situation Events
14. Restricted Access File: Dates of Adult Surveys
15. Restricted Access File: Weights for Families who Consented to Have HUD Receive PII²

The variables in these 23 files are listed and described in the PUF and RAF Codebooks (Data Dictionaries). Additional information about the construction of study outcomes is provided in Appendix B of the *Short-Term Impacts Report*, and Appendix B of the *3-Year Impacts Report*.

² This data file contains weights for families who consented to provide their PII to HUD. These weights allow the sample that can be matched in the future to administrative data sources to be representative of the entire study sample.

2. Contents of the PUF and RAF

Exhibit 1 lists the data files that make up the Family Options PUF and RAF. The PUF contain 8 data files and the RAF contain 15 data files. These files incorporate data collected from study members in the baseline, tracking, and follow-up surveys, as well as data on program usage, housing status, direct child assessments, and residential locations.

User's Guide (including survey questionnaires)

1. FOS_PUF_RAF_users_guide.pdf

Note: * for replication only, codebook is not provided. File is outdated and has been superseded by newer data.

To protect the identity of study families, the PUF versions of the program use/living situation and housing status files are linkable to each other but not to the other five public use files. All 15 restricted access files are linkable to each other.

There are six variables in the “FOS_PUF_Followup20_adult.csv” and “FOS_RAF_Followup20_adult.csv” files that are provided only for the purpose of replication of study results. These six variables are denoted by the “_old” suffix (p20_ownapt_old, p20_ownapt_noha_old, p20_ownapt_yesha_old, p20_food_insecure_old, p20_food_scale_old, and p20_food_secur_old). After the release of the *Short-Term Impacts Report*, the study team discovered errors in the construction of these variables. The corrected versions of the variables are included in the datasets and are named without the “_old” suffix.

One file in the PUF (FOS_PUF_Program_use_37mo_chng87.csv) and two files in the RAF (FOS_RAF_Program_use_20mo.csv and FOS_RAF_Program_use_37mo_chng87.csv) are also provided only for the purpose of replicating study results. Therefore, no codebooks are provided for these files.³ At the time of the 20-month analysis, the study team only cleaned the program use data for the 1,857 families who responded to the 20-month adult followup survey. At the time of the 37-month analysis, the study team cleaned anew the program use data for all 2,282 study families. After the *3-Year Impacts Report* was released, the study team finished preparing the living situation data. At that time, the study team revised the program use data for 87 families. The program use data for these 87 families used in the preparation of the *3-Year Impacts Report* is provided in the PUF and RAF “_Program_use_37mo_chng87” files, so that the report results may be replicated. The revised data for these families is included in the program use/living situation files (FOS_PUF_Prog_livsit_37mo and FOS_RAF_Prog_livsit_37mo).

The main added value of the “FOS_RAF_Prog_livsit_events_37mo” file is that it contains information about program use that occurred after the 37-month survey response. The program use/living situation data are based on survey and administrative records. These data have monthly indicator variables from the calendar month of random assignment through either (a) the calendar month of response to the 37-month survey (37-month survey respondents) or (b) the calendar month containing the 1,129th day after random assignment, the median 37-month response point (37-month survey non-respondents). Some administrative records from HMIS, PIC, and TRACS indicated program use that began after the calendar month of 37-month survey response or calendar month of the 1,129th day after random assignment. In order to provide information about these later events to researchers, the “events” file is included in the RAF. The events file has records on all cleaned program use and living situation events (start date, end date, and type of event), even those that started after the 37-month survey response. (Additional information about the preparation of the living situation data is provided in Appendix A of the forthcoming study report *Family Options Study: Effects on Family Living Situation*.)

The “FOS_RAF_Family_composition.csv” file contains information about all 10,984 family and other household members that the 2,282 family heads mentioned during the study period. The survey questionnaires in the appendices to this document show the items that the study team asked family heads at each survey wave about family and household members present, absent, and newly mentioned. The

³ Almost all variables on these files are named identically as variables on the FOS_[PUF/RAF]_Prog_livsit_37mo files. The exception is that in the FOS_[PUF/RAF]_Program_use_20mo files the abbreviation used for permanent supportive housing is “PH”, while the abbreviation used in the revised FOS_[PUF/RAF]_Prog_livsit_37mo files is “PSH”.

family composition file was prepared by matching the best information about each person from each of the survey waves. The “i_” variables on the file (for age, sex, relationship to family head, focal child status, newborn status, initial wave mentioned by family head, and presence with family head at each wave) have been cleaned and should be considered the most reliable information when the same type of information was collected at more than one wave. Each person on the file is uniquely identified by the combination of the raf_id (family ID) and raf_hh_id_num (within household ID) variables. The file may also be merged at the person-level with the focal child files using a combination of the raf_id and i_fc_status variables (the concatenation of which are equivalent to the raf_fc_id variable on the child files). Additional information about the preparation of the family composition file is provided in the codebook for this file.

The FOS_RAF_Geoid.csv file contains information about 15,056 addresses where study families lived during the study period. The study team collected addresses from families at each of the surveys and during active and passive participant tracking activities. The study team geocoded these addresses to the corresponding Census tract, Census block group, and zipcode. In 3.2 percent of cases, the address could not be geocoded (typically because address was a post office box number). For these cases, the centroid of the zipcode was matched to the nearest Census tract centroid. The FOS_RAF_Geoid file contains the Census tract id, Census block group id, zipcode, date when the address information was collected, and indicator variables that document whether the address was geocoded with street-level or zipcode-level (i.e., missing street information) precision.

The variable “wave” indicates the source of the address. The sources of address are:

- *Baseline survey.* For 74.5 percent of the families, the baseline address refers to the address where the family lived right before entering emergency shelter. For 25.5 percent of families this address was missing, and the baseline address refers to the address of the family’s last regular place to stay before entering emergency shelter.
- *Tracking surveys.* The study team collected addresses during tracking surveys 6-, 12-, and 27-months after random assignment
- *Follow-up surveys.* The study team collected addresses during follow-up surveys 20- and 37-months after random assignment.
- *Tracking phone calls.* The study team called families to collect updated contact information and addresses 3 and 24 months after random assignment.
- *Tracking mailings.* The study team sent letters to study families requesting updated contact information and address 9, 15, and 21 months after random assignment.
- *National change of address (NCOA) updates.* The study team collected addresses from passive tracking searches of national change of address databases.
- *Field interviewer/field manager.* In some cases, study families contacted the field interviewers or field managers to provide addresses.

3. Data sources and variable prefixes

The variables included in the PUF and RAF were collected from a variety of data sources (these are described in Chapter 4 and Appendix A of the *Short-Term Impacts Report*, and in Appendix A of the *3-Year Impacts Report*). The prefix of each variable provides information about the source of data for the variable.

<u>Variable Prefix</u>	<u>Data Source or Variable Type</u>
a20_htks_	Variable was collected during or is derived from the 20-month HTKS child assessment.
a37_htks_	Variable was collected during or is derived from the 37-month HTKS child assessment.
a20_wjiii_	Variable was collected during or is derived from the 20-month WJIII child assessment.
a37_wjiii	Variable was collected during or is derived from the 37-month WJIII child assessment.
b_	Variable was collected during the baseline survey or is derived from baseline survey items.
bv20_	Variable was a covariate for 20-month impact analysis presented in the <i>Short-Term Impacts Report</i>
bv37_	Variable was a covariate for 37-month impact analysis presented in the <i>3-Year Impacts Report</i> ⁴
c20_	Variable was collected during the 20-month child survey or is derived from 20-month child survey items.
c37_	Variable was collected during the 37-month child survey or is derived from 37-month child survey items.
ev_	Variable was collected from study team enrollment verification phone calls to study providers or is derived from enrollment verification phone calls.
hs_	Variable was collected by housing status survey items in the 6-, 12-, 20-, 27-, and 27-month surveys.
i_	Highly notable information (from variety of data sources).
o20_	Variable was collected by 20-month survey interviewer using the HOME observation form.
o37_	Variable was collected by 37-month survey interviewer using the HOME observation form.

⁴ At the time of the 37-month analysis, minor revisions to three 20-month covariates (`_disab_fam`, `_ever_worked`, `_htlh_prob`) were made and the imputation procedure for missing values in covariates was performed anew. For replicability, the FOS_RAF_Baseline file includes both 20-month and 37-month versions of the covariates. The FOS_PUF_Baseline file includes only the 37-month set of covariates.

p06_	Variable was collected during the 6-month tracking survey
p12_	Variable was collected during the 12-month tracking survey
p20_	Variable was collected during the 20-month parent survey or is derived from 20-month parent survey items.
p27_	Variable was collected during the 27-month tracking survey
p37_	Variable was collected during the 37-month parent survey or is derived from 37-month parent survey items.
p20_asq_	Variable was collected during the 20-month Ages and Stages Questionnaire (ASQ) administration to the parent or is derived from 20-month ASQ items.
p37_asq_	Variable was collected during the 37-month Ages and Stages Questionnaire (ASQ) administration to the parent or is derived from 37-month ASQ items.
pg20_	Variable is from 20-month version of program usage data or is derived from these data (described in appendix sections A.13 and B.6 in the <i>Short-Term Impacts Report</i>). (These variables are for replication of <i>Short-Term Impacts Report</i> results only, and are now superseded by pg37_ variables from the 37-month version of the program usage/living situation data.)
pg37_	Cleaned variable is from program usage/living situation data or is derived from these data (described in appendix sections described in appendix sections A.13 and B.6 in the <i>Short-Term Impacts Report</i> , appendix sections A.13 and B.8 in the <i>3-Year Impacts Report</i> , and in <i>Family Options Study: Effects on Family Living Situation</i>).
r_	Variable was collected as part of the random assignment enrollment data or is derived from these data.
valid_	Variable defines the analysis base for a study outcome.
w_	Analysis weight

4. How to use the PUF and RAF

The CSV data files of the PUF and RAF can be read in to SAS or Stata statistical software using the appropriate sample program (FOS_PUF_read_in_data_sas.sas, FOS_RAF_read_in_data_sas.sas, FOS_PUF_read_in_data_stata.do, and FOS_RAF_read_in_data_stata.do). In addition to reading in the datasets, these programs also fully label the variables and their values. Users of other statistical packages may adapt the code from these programs to the code of their preferred package.

The baseline, followup adult, and child public use files can be linked to one another simply by merging on the “puf1_id” variable. The program use and housing status public use files can be linked to one another by merging on the “puf2_id” variable. The restricted access files can be linked to one another by merging on the “raf_id” variable. The person-level child files may be linked to the person-level family composition file by merging the “raf_fc_id” with the concatenation of the “raf_id” and “i_fc_status” variables found on the family composition file.

Weights

Analysis weights are included with the PUF and RAF. Calculations using the 20-month and 37-month study outcomes should incorporate these weights. The prefix of each weight variable name provides information on the outcomes that the weight should be used with. The suffix of each weight variable name is the impact comparison that the weight should be used with.

<u>Weight Variable Prefix</u>	<u>Description and Use</u>
w_nr_p20_ w_nr_p37_	Analytic weight (addressing parent survey unit non-response) for family and parent outcomes derived from the [20-month/37-month] parent survey
w_ttl_asq_20_ w_ttl_asq_37_	Analytic weight (addressing parent survey unit non-response, focal child selection, and ASQ non-response) for focal child outcomes derived from the [20-month/37-month] ASQ
w_ttl_csurv_20_ w_ttl_csurv_37_	Analytic weight (addressing parent survey unit non-response, focal child selection, and child survey unit non-response) for focal child outcomes derived from the [20-month/37-month] child survey
w_ttl_htks_20_ w_ttl_htks_37_	Analytic weight (addressing parent survey unit non-response, focal child selection, and HTKS unit non-response) for focal child outcomes derived from the [20-month/37-month] HTKS assessment
w_ttl_pr_20_ w_ttl_pr_37_	Analytic weight (addressing parent survey unit non-response and focal child selection) for parent-reported focal child outcomes derived from the [20-month/37-month] parent survey
w_ttl_wjiii_20_ w_ttl_wjiii_37_	Analytic weight (addressing parent survey unit non-response, focal child selection, and WJIII unit non-response) for focal child outcomes derived from the [20-month/37-month] WJIII assessment

w_nrcnc_p37_	Analytic weight (addressing 37-month parent survey unit non-response and non-consent to release personally identifiable information to the study sponsors) for administrative outcomes that are linked in the future to the study family heads. (See section 6 of this guide for more information on the Personally-Identifiable Information (PII) Data File.)

<u>Weight Variable Suffix</u>	<u>Impact Comparison</u>
_su	SUB vs. UC
_cu	CBRR vs. UC
_pu	PBTH vs. UC
_sc	SUB vs. CBRR
_sp	SUB vs. PBTH
_cp	CBRR vs. PBTH
_scp_u	SUB + CBRR + PBTH vs. UC
_sc_p	SUB + CBRR vs. PBTH
_sp_c	SUB + PBTH vs. CBRR
_cp_s	CBRR + PBTH vs. SUB
_general (37-month only)	Defined for full sample; based on other weight variables. Adjustment for non-response is calculated only within assignment group. SUB group=_su. CBRR group=_cu. PBTH group=_pu. UC group=_scp_u. These are general-purpose weights for use with full-sample analysis. The user may create 20-month version of _general weights using the 20-month _su, _cu, _pu, and _scp_u weights.

An additional weight variable “w_fc_selection_wgt” is provided (for informational purposes) on the “FOS_RAF_fcinfo_37mo.csv” file. This weight is the inverse probability of selection for each selected focal child within a family. It is incorporated into the analytic weights used for child outcomes.

Selecting Impact Comparison Samples With the “i_ra_result” and “comp_” Variables

The PUF and RAF versions of the baseline, 20-month adult, 37-month adult, and program use and living situation files all include the “i_ra_result” variable. This variable contains the name of the study group to which the family was randomly assigned (SUB, CBRR, PBTH, or UC). Because not all families had all randomization options available to them at the point of randomization, however, the “i_ra_result” variable should not be used to select samples for impact analyses. Instead, the “comp_” variables (using comparison suffices listed in the table above) should be used to select samples for impact comparisons.

For example, the families with `comp_su = 1` are the families that should be included in the SUB vs. UC impact comparison.

Missing Value Codes

For most files, the study team attempted to distinguish between “inappropriate” missing values due to nonresponse (unit nonresponse and item nonresponse) and “appropriate” missing values due to survey skip patterns. The meaning of each missing value code for each variable can be found in the SAS and Stata formats programs (“FOS_formats_sas.sas” and “FOS_formats_stata.do”). The most common missing value codes are `.D`=“Don't Know”, `.R`=“Refused”, `.S`=“Logical Skip”, `.U`=“Unit Nonresponse”, and `.N`=“Unit not applicable”. The “`Z`” code is also frequently used, but its meaning (usually for some type of inappropriate missing) varies across variables. Given the complexity of the family composition file, in that file no attempt was made to distinguish between various types of reasons for missing values.⁵

“raf_hh_id_num” Variable on the Family Composition File

Each person on the Family Composition file is uniquely identified by a combination of the `raf_id` (family ID) and the `raf_hh_id_num` variables. The `raf_hh_id_num` is the ID variable for a person within the household. Its possible values are from 101 to 699. The first digit of the `raf_hh_id_num` contains information about the type of household member:

101	= family head
102, 103, ...	= other adults (age 18 or over) present with the family in shelter at baseline
201, 202, 203, ...	= children (under age 18) present with the family in shelter at baseline
301	= spouse or partner mentioned but NOT present with the family in shelter at baseline

501, 502, 503, ...	= adults (age 18 or over) initially mentioned as staying with family at post-baseline survey wave
601, 602, 603, ...	= children (under age 18) initially mentioned as staying with family at post-baseline survey wave

Sample Programs

Six sample programs (the “`_read_in_`” and “`_formats_`” programs) are available to convert PUF and RAF CSV files to SAS or Stata data files. These files read in the raw data and apply labels and value formats to all the variables.

Eight sample SAS programs are available to use with the RAF for the purpose of reproducing the main impact results presented in the *Short-Term Impacts Report* and the *3-Year Impacts Report*. These programs do not work directly with the CSV restricted access files, but instead with SAS analysis data

⁵ All missing values on the family composition file were coded as “`Z`”, whether due to unit nonresponse, item nonresponse, errors in then-current family rosters, confusion about who was being asked about on the part of the respondent, or survey skip patterns.

files that have been created and saved by the user. The simplest way to create the four necessary analysis data files is to create

- (1) a 20-month adult analysis file from the merge of the baseline, 20-month followup adult, and 20-month program use files;
- (2) a 37-month adult analysis file from the merge of the baseline, 37-month followup adult, and 37-month program use/living situation files (and using original 37-month program use data for the 87 families with revised program use data);
- (3) a 20-month child analysis file from the merge of the baseline and 20-month child files; and
- (4) a 37-month child analysis file from the merge of the baseline and 37-month child files.

All merges should use the “raf_id” variable.

- *FOS_RAF_program_use_results_followup20.sas*,
FOS_RAF_program_use_results_followup37.sas : These programs produce the program use results presented in the *Short-Term Impacts Report* and the *3-Year Impacts Report* for the 10 impact comparisons. The programs output these results to Excel workbooks called “program_use_results_followup[20/37].xlsx.” These programs require the adult analysis data files.
- *FOS_RAF_ucmeans_for_effectsize_followup20.sas*,
FOS_RAF_ucmeans_for_effectsize_followup37.sas: These programs produce datasets (called “FOS_RAF_ucmeans_for_effsize_[f20/f37].sas7bdat”) with the means and standard deviations of the 20-month and 37-month outcomes for the entire Usual Care group. The standard deviations are used by the adult and child impact programs to calculate standardized effect sizes. These programs require both the adult and child analysis data files. These programs must be run prior to the adult and child impact programs for those programs to work correctly.
- *FOS_RAF_adult_impact_program_followup20.sas*,
FOS_RAF_adult_impact_program_followup37.sas: These programs produce the results for 40 of the impact tables presented in each of the impact reports. These are the housing stability, family preservation, adult well-being, and self-sufficiency tables for the 10 impact comparisons. The programs output the results to separate Excel workbook for each impact comparison. The workbooks are named as “[f20/f37]_[impact comparison prefix]_results.xlsx”. The impact comparison prefixes are the same as the suffixes used for the weight variables (shown above). These programs require the followup-appropriate adult analysis data file.
- *FOS_RAF_child_impact_program_followup20.sas*,
FOS_RAF_child_impact_program_followup37.sas : These programs produce the results for 20 of the impact tables presented in the impact reports. These are child well-being tables for the 10 impact comparisons. The programs output the results to the same Excel workbooks used by the adult impact programs. These programs require the followup-appropriate child analysis data file.

5. Additional information on impact model covariates

The impact model covariates are variables that are created based on information available prior to random assignment from the random assignment enrollment records and the baseline survey. Some values for these variables were missing due to item non-response or skip patterns on the baseline survey. These values were imputed for the full sample using single stochastic imputation (described in appendix section C.2 in the *Short-Term Impacts* report and appendix section C.2 in the *3-Year Impacts* report). The table below shows the rates of missing values for the baseline covariates for the full sample (2,282 families) and for the 20-month respondent families (1,857 families) and the 37-month respondent families (1,784).

<u>Covariate Variable Name</u>	<u>Percent Missing, Full Sample (N=2,282)</u>	<u>Percent Missing, 20-Month Respondent Sample (N=1,857)</u>	<u>Percent Missing, 37-Month Respondent Sample (N=1,784)</u>

6. Personally-Identifiable Information (PII) Data Files

In addition to the PUF and RAF files, the Family Options Study generated two files (one for adults and one for children) containing personally identifiable information (PII) for study families who consented to release this information to HUD. Altogether, 1,548 family heads (68 percent of all families) consented to provide their PII to HUD, and 1,458 family heads (64 percent of all families) consented to provide PII for their children who were younger than age 18 (as of April 1, 2017) to HUD.⁶ This PII will not be released to researchers. Researchers interested in utilizing these data for matching study sample members to administrative records will need to contact HUD's Office of Policy Development and Research and follow protocols to obtain permission to use these data. These protocols and permissions are separate from permissions required to use the restricted access files.

The "FOS_RAF_Nonconsent_wgts_adult.csv" file contains analysis weights that allow the sample of 1,548 family heads who consented to provide their PII to HUD to represent all 2,282 family heads in the study. These weights are intended for impact analysis and they may be used to construct a general weight suitable for descriptive analysis.⁷

⁶ The child PII file contains information for 3,262 children in 1,351 families. Only family heads' own children are included on the file (i.e., step-children and foster children are excluded).

⁷ The general weight would be constructed by using the "_su" weight for the SUB group, the "_cu" weight for the CBRR group, the "_pu" weight for the PBTH group, and the "_scp_u" weight for the UC group. Two families (raf_id =1298 and 2079) gave consent for PII to be provided to HUD but were not respondents to the 37-month survey. Consequently, these families will have weights equal to 0.

Introduction

Hi, my name is _____ and I work for Abt SRBI, an independent research company. We are helping the U.S. Department of Housing and Urban Development (HUD) to do a study to find out what kind of housing assistance is best for families who become homeless. One of the things we are asking families who participate in the study to do is to answer questions for a survey that will help us learn more about the kinds of experiences families have and the kinds of assistance that is most helpful to them. The survey will take about 40 minutes to complete. You can stop the interview at any time and you can choose not to answer any question. The information you provide will only be used for this study. All information you provide is confidential and it will be protected to the fullest extent possible by law, including the *Privacy Act*. This means for example, that we may need to notify someone if keeping that information confidential could harm you or someone else. . The collection of this information has been approved by the Office of Management and Budget. At the end of the interview, you will be paid \$35 in appreciation for your time.

Note: Unless otherwise indicated, for dedicated fields 1=checked and 0=not checked.

Section A: Pre-Shelter Housing

First, I'd like to ask about your housing before you came to this shelter. I would like you to think back to the place where were you living right before you came to [SHELTER NAME]?

A1. Which one of the following best describes your living situation right before you came to [SHELTER NAME]?

INTERVIEWER: READ EACH ITEM IN LIST FOR A1a-A1d. EACH ITEM NOW APPEARS ONE QUESTION PER SCREEN.

<i>Would you say you were staying in...</i>		YES	NO	REF	DK

Section B: Housing Barriers

Next, I'd like to ask about things that make it difficult at times for some people to find a place to live.

B1. There are many things that can make finding a place to live difficult. I'm going to read a list of reasons why some people might have trouble finding housing. Think about **your own situation**, and please tell me if you think this is a big problem, a small problem, or not a problem at all **for you and your family**.

Section C: Homelessness History

Now I am going to ask you some questions about any experiences you may have had with homelessness in your lifetime. By homeless, I mean times when you didn't have a regular place to stay. During this time you may have lived in a homeless shelter or temporarily in an institution because you had nowhere else to go. Homeless can also include living in a place not typically used for sleeping such as on the street, in a car, in an abandoned building, or in a bus or train station. Please **do not include** any times when you may have stayed with friends or relatives because you did not have your own place to stay.

The Impact of Housing and Services Interventions for Homeless Families Tracking Interview

Introduction

Hello, my name is []. I work for a company called Abt SRBI. You might remember that I met with you back in [MONTH/YEAR of RA at [INSERT LOCATION WHERE INTERVIEWER LAST MET WITH RESPONDENT]]. At that time I talked to you about a study that we are doing to find out about what kind of housing is best for families who become homeless. Abt SRBI is an independent research company and we are helping the U.S. Department of Housing and Urban Development (HUD) to do this study. When we talked back in [MONTH/YEAR OF RA/MONTH], I mentioned that I'd be getting in touch with you again to find out about your housing experiences. I'd like to ask you some questions now. The survey will take about 10 minutes to complete. You can stop the interview at any time. You can choose not to answer any question. The information you provide will be kept confidential and only used for this study. The collection of this information has been approved by the Office of Management and Budget. At the end of the interview, you will be paid \$15, in appreciation for your time.

Section A: Current Housing, Homelessness since previous interview, housing program participation

First, I'd like to ask about where you are living/staying right now.

Appendix C. FOS 20-Month Parent Follow-Up Survey

Family Options Study

18-Month Follow-Up Survey

Introduction

Hello, my name is []. I work for a company called Abt SRBI. Abt SRBI is an independent research company and we are helping the U.S. Department of Housing and Urban Development (HUD) to do this study.

You might remember meeting with me or one of my co-workers back in [MONTH/YEAR of RA /] at [INSERT SHELTER NAME]. At that time I talked to you about a study that we are doing to find out about what kind of housing is best for families who become homeless.

Since that first meeting, you may recall participating in short telephone interviews with us or responding to a letter we sent you. When we talked back in [MONTH/YEAR OF RA/MONTH/YEAR OF LAST TRACKING INTERVIEW], I mentioned that I'd be getting in touch with you again to find out about your housing and other experiences.

I'd like to ask you some questions now. This interview will take about 60 minutes to complete. You can stop the interview at any time. You can choose not to answer any question. The information you provide will be kept confidential and only used for this study. The Office of Management and Budget approved the collection of this information. At the end of the interview, you will receive \$50, in appreciation for your time.

SAMPLE VARIABLE DEFINITIONS:

- **SAMP_NUM1....SAMP_NUMx**: This is the randomly generated sample number for each potential focal child.
- **CHILD_WITH1...CHILD_WITHx**: This is the variable that indicates whether the child was in the shelter with the parent at baseline or not. 1=Yes with parent; 0=No not with parent
- **NEWBORN1....NEWBORNx**: This is the variable that indicates whether or not this slot for potential focal child is set as a newborn child. 0 = not newborn; 1 = slot for newborn 1; 2 = slot for newborn 2
- **NUMCHILD**: This is the variable indicates the maximum number of potential focal children for CAPI to loop through.

FOCAL CHILD SELECTION SCREENER

During prior interviews with us, you gave us some information about all the children living you and child members of your family that were not living with you. As I mentioned at the start of the interview, we want to ask you about up to two of these children. We also want to conduct some interviews or do some interactive assessments with up to two of these children.

The next few questions are intended to help us determine which child(ren) to ask about.

SC1. Between [RADATE] and [DATE6MONTHSPRIOR] have you (given birth to/fathered) a child? <SC1>

- YES..... 1

Note: Values for <SC1ADKC7> / <SC1ADKC8>: 0 = NOT Selected; 1 = Selected.

SC1b. What is the child's first name? <SC1B_X> [X = 1- 3]

FIELD INTERVIEWER NOTE: IF SC1a>1 ASK FOR NAME OF CHILD STARTING WITH THE OLDEST TO YOUNGEST.

- First Name: ____<SC1B_1_OTHER_X> [X = 1-3] BASE: SC1B_X = 1
- REFUSED..... 7
- DON'T KNOW 8

CAP: REPEAT SC1b FOR EACH CHILD BORN. NAME FOR OLDEST CHILD SHOULD BE USED FOR [CHILD] WHEN REFERRING TO CHILD WITH NEWBORN_x=1; NAME FOR SECOND OLDEST CHILD SHOULD BE USED FOR [CHILD] WHEN REFERRING TO CHILD WITH NEWBORN_x=2.

CAPI SELECT FOCAL CHILD A:

- START WITH [SAMP_NUM1]. This should be the child with the lowest randomly assigned sampling number.
- IF CHILD_WITH1=0 OR NEWBORN1=1 OR 2 THEN SKIP TO NEXT SAMP_NUM. IF CHILD_WITH1=1 AND NEWBORN1=0 CONTINUE;

IF DOB IS PRESENT (from the 6 or 12 month data) ASK SC2; IF DOB IS NOT PRESENT SKIP TO SC2a.

CONDOLENCE SCRIPT: I am sorry for your loss. Do you need to take a minute before we go on?

DEFINE FC_STATUSx

(Note CAPI will assign all eligible children with a variable FC_STATUS1....FC_STATUSx). The values will be as follows:

FC_STATUSx=A for child selected under Focal Child A criteria;

FC_STATUSx=B for first child selected under Focal Child B criteria;

FC_STATUSx=C for second child selected under Focal Child B criteria (use this if no child meets Focal Child A set of criteria).

FC_STATUS=D for all children not selected

IDENTIFY SELECTED FOCAL CHILD A:

- IF SC3=3,4,5,7,8 SKIP TO CHILD NEXT AVAILABLE [SAMP_NUMx] AND REPEAT SC2 THROUGH SC3 UNTIL FOCAL CHILD A IS SELECTED.

STARTING WITH CHILD WITH LOWEST UNSELECTED [SAMP_NUMx] AVAILABLE THERE ARE 3 DIFFERENT SCENARIOS:

- IF CHILD_DOB#, CHILD#, RELATIONSHIP#, GENDER#, CHILDWITH#, AND NEWBORN#=PACKED; THEN ASK QUESTIONS SC4-SC7 TO SEE IF CHILD MEETS CRITERIA FOR SELECTION. IF NOT, GO TO NEXT LOWEST UNSELECTED SAMP_NUMx.

- IF CHILD_DOB#, CHILD#, RELATIONSHIIP#, GENDER#, CHILDWITH# = BLANK AND ((NEWBORN#= 1 OR 2 AND) SC1=YES) ; THEN ASK QUESTIONS SC4-SC7 TO SEE IF CHILD MEETS CRITERIA FOR SELECTION. IF NOT, GO TO NEXT LOWEST UNSELECTED SAMP_NUMx.
- IF CHILD_DOB#, CHILD#, RELATIONSHIIP#, GENDER#, CHILDWITH# = BLANK AND NEWBORN#= 0, GO TO NEXT LOWEST UNSELECTED SAMP_NUMx.

NOTE: IF CHILD_DOB#, CHILD#, RELATIONSHIIP#, GENDER#, CHILDWITH#, AND NEWBORN#= ARE ALL BLANK; THEN WE DO NOT HAVE MORE KIDS TO SCREEN IN.

IF DOB IS PRESENT ASK SC4; IF DOB IS NOT PRESENT SKIP TO SC4a. <SC4_X> [X = 1-10]

INTRO A: INTRODUCTION AND CONSENT SCRIPT FOR CHILDREN 11 YEARS OLD AND OLDER:

Hello, my name is _____ and I work for Abt SRBI. Thank you for taking the time to speak with me today. About three years ago, your family volunteered to be in a study, called the Family Options Study. The Family Options Study is a study about housing programs for families.

As part of this study, we are trying to learn which kinds of things help children and families the most. We are interested in learning more about how you and other people your age think and feel about different things, school and how you get along with your parents. We want you to answer as truthfully as possible, because your thoughts and experiences are very important. But, if you do not feel like answering a question, that's OK, you can just skip it and go onto the next one. If you decide you don't want to do any more, please tell me and we can stop at any time. It is OK to tell me that you want to stop. You will not get in trouble if you want to stop the interview or choose not to answer questions. This interview will take about 30 minutes, and when you have completed it, we will give your parent \$25 for you to thank you for your time.

Special efforts will be taken to keep your information and answers confidential and private. Your answers will never be seen by anyone in your family, people at school, or anyone else who knows you. Only the people who are working on this study will see your answers. But, if sharing any of this information could help stop you or someone else from being hurt, the people looking at the information might share it to help you or the other person.

Do you have any questions?

[INTERVIEWER: ANSWER QUESTIONS ACCORDINGLY]

AFTER ANSWERING ANY POSSIBLE QUESTIONS:

FIELD INTERVIEWER RECORD:

YES, ASSENT WAS PROVIDED..... ₁ **CONTINUE WITH INTERVIEW**
NO, ASSENT WAS REFUSED, FC DOES NOT WANT TO PARTICIPATE ₂ **TERMINATE INTERVIEW**

If you have any other questions, even after we finish this interview, you may also call the study toll-free line at 1-800-320-9193.

If you have any questions about your rights as a participant in this study, you can call Ms. Katie Speanburg, the Abt Associates Institutional Review Board (IRB) Administrator, toll free at (877) 520-6835.

Okay, let's get started.

INTRO B:FOR CHILDREN 8-10

Hello, my name is _____. I'd like to spend a few minutes today talking to you about your school, family, and some feelings that you may have.

Our conversation will take about 30 minutes, and we will give your parent \$25 when we are done with everything to thank you for participating. We hope you will be really truthful in answering every question, because what you say is very important.

If you do not feel like answering a question, that's OK, we can just skip it and go onto the next one. If you decide you don't want to answer any more questions, please tell me and we can stop at any time. It is OK to tell me that you want to stop.. You will not get in trouble if you want to stop the interview or choose not to answer questions.

Your answers will never be seen by anyone in your family, people at school, or anyone else who knows you. Only the people who are working on this study will see your answers.

Revised 5/2015:

Introduction

Hello, my name is []. I work for a company called Abt SRBI. Abt SRBI is an independent research company and we are helping the U.S. Department of Housing and Urban Development (HUD) to do this study.

You might remember meeting with me or one of my co-workers back in [MONTH/YEAR of RA /] at [INSERT SHELTER NAME]. At that time I talked to you about a study that we are doing to find out about what kind of housing is best for families who become homeless.

Since that first meeting, you may recall participating in short telephone interviews with us or responding to a letter we sent you. You may also recall completing an interview with us back in [MONTH/YEAR OF 18-MONTH INTERVIEW]. When we talked back in [MONTH/YEAR OF LAST INTERVIEW], I mentioned that I'd be getting in touch with you again to find out about your housing and other experiences.

I'd like to ask you some questions now. This interview will take about 60 minutes to complete. You can stop the interview at any time. You can choose not to answer any question. If you choose not to answer any questions or to stop the interview, there will be no penalty or effect on any benefits you receive now or in the future. The information you provide will be kept confidential and only used for studies about the housing and services that are the focus of this study.

As stated in the consent form we just reviewed, the Office of Management and Budget approved the collection of this information. If you want to provide comments regarding this burden estimate or any other aspect of this collection of information, instructions can be found on the consent form.

At the end of the interview, you will receive \$50, in appreciation for your time. We may ask for your permission to collect data from up to two children in your household.

Do you have any questions?

[INTERVIEWER: ANSWER QUESTIONS ACCORDINGLY]

If you have any other questions, even after we finish this interview, you may also call the study toll-free line at 1-800-320-9193.

If you have any questions about your rights as a participant in this study, you can call Ms. Katie Speanburg, the Abt Associates Institutional Review Board (IRB) Administrator, toll free at (877) 520-6835.

Okay, let's get started.

INCARCERATED CHECK: IF RESPONDENT IS INCARCERATED: DO YOU HAVE AN IRB APPROVED PROTOCOL FOR THIS RESPONDENT?

YES, I HAVE THE APPROVED IRB PROTOCOL 1

NO, RESPONDENT IS NOT INCARCERATED 2

RESPONDENT IS INCARCERATED, NO IRB PROTOCOL 3 (SKIP TO TERMINATE SCRIPT 1)

DON'T KNOW 8 (SKIP TO TERMINATE SCRIPT 1)

TERMINATE SCRIPT 1: *I'm sorry, but I am having difficulty calling up your record. I will resolve this issue with my supervisor. I will try to reschedule this appointment at that time.*

SAMPLE VARIABLE DEFINITIONS:

- **SAMP_NUM1....SAMP_NUMx**: This is the randomly generated sample number for each potential focal child.
- **CHILD_WITH1...CHILD_WITHx**: This is the variable that indicates whether the child was in the shelter with the parent at baseline or not. 1=Yes with parent; 0=No not with parent
- **NEWBORN1....NEWBORNx**: This is the variable that indicates whether or not this slot for potential focal child is set as a newborn child. 0 = not newborn; 1 = slot for newborn 1; 2 = slot for newborn 2
- **NUMCHILD**: This is the variable indicates the maximum number of potential focal children for CAPI to loop through.

NEW Focal Child Selection Screener

(FOR RESPONDENTS THAT DID NOT COMPLETE THE 18-MONTH INTERVIEW): COMP18=0

During prior interviews with us, you gave us some information about all the children living you and child members of your family that were not living with you. As I mentioned at the start of the interview, we want to ask you about up to two of these children. We also want to conduct some interviews or do some interactive assessments with up to two of these children.

The next few questions are intended to help us determine which child(ren) to ask about.

SC1. Between [RADATE] and [DATE6MONTHSPRIOR] have you (given birth to/fathered) a child? <SC1>

CAPI: REPEAT SC1b FOR EACH CHILD BORN. NAME FOR OLDEST CHILD SHOULD BE USED FOR [CHILD] WHEN REFERRING TO CHILD WITH NEWBORN_x=1; NAME FOR SECOND OLDEST CHILD SHOULD BE USED FOR [CHILD] WHEN REFERRING TO CHILD WITH NEWBORN_x=2.

CAPI SELECT FOCAL CHILD A:

- START WITH [SAMP_NUM1]. This should be the child with the lowest randomly assigned sampling number.
- IF CHILD_WITH1=0 OR NEWBORN1=1 OR 2 THEN SKIP TO NEXT SAMP_NUM. IF CHILD_WITH1=1 AND NEWBORN1=0 CONTINUE;

IF DOB IS PRESENT ASK SC2; IF DOB IS NOT PRESENT SKIP TO SC2a.

DEFINE FC_STATUSx

(Note CAPI will assign all eligible children with a variable FC_STATUS1....FC_STATUSx). The values will be as follows:

- FC_STATUSx=A for child selected under Focal Child A criteria;
- FC_STATUSx=B for first child selected under Focal Child B criteria;
- FC_STATUSx=C for second child selected under Focal Child B criteria (use this if no child meets Focal Child A set of criteria).
- FC_STATUS=D for all children not selected

INTRO A: INTRODUCTION AND CONSENT SCRIPT FOR CHILDREN 11 YEARS OLD AND OLDER:

Hello, my name is _____ and I work for Abt SRBI. Thank you for taking the time to speak with me today. About a year and a half ago, your family volunteered to be in a study, called the Family Options Study. This is a study about housing programs for families.

As part of this study, we are trying to learn which kinds of things help children and families the most. We are interested in learning more about how you and other people your age think and feel about different things, school and how you get along with your parents. We want you to answer as truthfully as possible, because your thoughts and experiences are very important. But, if you do not feel like answering a question, that's OK, you can just skip it and go onto the next one. If you decide you don't want to do any more, please tell me and we can stop at any time. It is OK to tell me that you want to stop. You will not get in trouble if you want to stop the interview or choose not to answer questions.

This interview will take about 30 minutes, and when you have completed it, we will give your parent \$25 for you to thank you for your time.

Special efforts will be taken to keep your information and answers confidential and private. Your answers will never be seen by anyone in your family, people at school, or anyone else who knows you. Only the people who are working on this study will see your answers. But, if sharing any of this information could help stop you or someone else from being hurt, the people looking at the information might share it to help you or the other person.

Do you have any questions?

[INTERVIEWER: ANSWER QUESTIONS ACCORDINGLY]

AFTER ANSWERING ANY POSSIBLE QUESTIONS:

FIELD INTERVIEWER RECORD:

YES, ASSENT WAS PROVIDED..... ₁ CONTINUE WITH INTERVIEW
NO, ASSENT WAS REFUSED, FC DOES NOT WANT TO PARTICIPATE ₂ TERMINATE INTERVIEW

CAPI PROGRAMMER: If 2 children are selected and the first child being interviewed does not give assent after confirmation to terminate screen comes please redirect Interviewer to next interview.

INTERVIEWER: If no consent is checked then a confirmation screen will come up to terminate the interview or go back to consent. If 2 children are being interviewed and the first child does not give consent, when the interview is terminated you will be re-directed to the second FC interview.

If you have any other questions, even after we finish this interview, you may also call the study toll-free line at 1-800-320-9193.

If you have any questions about your rights as a participant in this study, you can call Ms. Katie Speanburg, the Abt Associates Institutional Review Board (IRB) Administrator, toll free at (877) 520-6835.

Okay, let's get started.

INTRO B:FOR CHILDREN 8-10

Hello, my name is _____. I'd like to spend a few minutes today talking to you about your school, family, and some feelings that you may have.

Our conversation will take about 30 minutes, and we will give your parent \$25 when we are done with everything to thank you for participating. We hope you will be really truthful in answering every question, because what you say is very important.

If you do not feel like answering a question, that's OK, we can just skip it and go onto the next one. If you decide you don't want to answer any more questions, please tell me and we can stop at any time. It is OK to tell me that you want to stop. You will not get in trouble if you want to stop the interview or choose not to answer questions.

Your answers will never be seen by anyone in your family, people at school, or anyone else who knows you. Only the people who are working on this study will see your answers.
